PROSPEROUS CRIMINAL POSITION AVAILABLE."**

**"CITIZENS MAY PREFER SPECIE TO CURRENCY. THE  
COURTS CANNOT CONTROL PREFERENCES FOR ONE KIND  
OF MONEY OVER ANOTHER." ---The Times, London, May 31,  
1933, page 21.**

Among other research projects I've had on the shelf while researching other matters, I noticed the case of Judge Patterson in Manhattan District Court dismissing the silver lawsuit in late 2012. Before a really enormous legal firestorm ignites in New York, Chicago and Washington, D.C., over gold suppression by

the CME Group, JPMorgan Chase and others, let's look at the background of this judge who acted against silver in late 2102--- his associations, his father's connections, and some of their genealogies and associates. This will ready us for the inevitable hornet's nest of corruption over legal actions in those cities. Their background is a certain forecast---it "can't be anything but rotten clear through," to borrow the words of Nick Barkley in "The Big Valley" TV series, January 1, 1968 episode, "The Good Thieves." Federal court corruption is so severe, just thinking about it makes you feel like you've been guzzling seawater! On December 21, 2012, Federal District Court Judge Patterson of the Southern District of New York dismissed a silver antitrust price-fixing lawsuit primarily against JPMorgan Chase but originally including London based HSBC, whose USA subsidiary, HSBC U.S. was "previously" on the roster of the Silver Users Association. Luke 18:6 about the unjust judge comes to mind.

A quick look at Patterson senior and junior shows them functionaries of the Money Power; page 1888 of the 1952-1953 Who's Who In America, scanned in yellowed paper (not acid free paper therefore browned/yellowed, original volume, nevertheless quite legible, scan adjusted for best resolution) ---

"Gold has no useful purpose to serve in the pockets of the people"--  
--Alan Sproul, Pilgrims Society, president of the Federal Reserve Bank of New York, 1941-1956, who knew Patterson Senior as a director!

For documentation see "1949 & 2009 Same Con Men" originally  
released in December 2009 at Silver Investor

<http://nosilvernationalization.org/100.pdf> Patterson Senior, father of the judge who nixed the silver lawsuit---

He sure had an “I’m gonna get you” look! The slithery saboteur he spawned put it to silver investors big time, because the Money Power viciously hates silver! That we are expected to call such illegally acting judges “Your Honor” is on par with a rape victim being demanded to call the perpetrator a “physician.” These type of judges run with people who might “mis-speak.” On January 22, 1952, a plane crash prevented Patterson from engaging in any additional Federal Reserve activities. That crash would have been accidental unlike the crash in which Georgia Congressman Lawrence Patton McDonald, pro-silver activist and cousin of General Patton, was killed on September 1, 1983. The probable role of Pilgrims Society member George P. Shultz, then Secretary of State, is discussed in “The Silver Stealers.” McDonald also introduced a bill to withdraw American membership from the United Nations and that made him all the more a marked man. Shultz, who as Treasury Secretary, 1972–1974, suppressed precious metals, had to know about McDonald’s championing of silver money! Shultz remains a “visiting advisor” in the Obama White House and has chaired the international advisory council to JPMorgan Chase.

His daughter, Susan Patterson Hand, was very likely related to two other judges who held chambers in that courthouse---Augustus Hand and Learned Hand. Augustus may have been a Pilgrims member; the 1949 document I have unfortunately is not readable where his name would appear.

[http://en.wikipedia.org/wiki/Robert\\_P.\\_Patterson](http://en.wikipedia.org/wiki/Robert_P._Patterson) He married Margaret T. Winchester---connection? Most likely. It was Pilgrims Society member Herbert Hoover who in 1930 appointed Patterson Senior above a Federal judge in United States District Court for the Southern District of New York. From page 36 of the leaked list of The Pilgrims, 1924, showing Herbert Hoover a member of The Pilgrims London---

“Few Americans realize the magnitude of British influence in this country”---Montana Congressman Jacob Thorkelson citing content

from "Sir Uncle Sam---Knight of the British Empire" in the  
Congressional Record, August 20, 1940.

OK, I could spend some time cleaning it up, it came to me as a pdf. Just go with this legible copy! Those who have followed my research know I've been pounding the drums about this one organization since December 2004! Sites have been very reluctant to give this subject any coverage. That's not my demerit. I'm doing the best I know how to spotlight this group as it's the top UK/USA organization of gold and silver antagonists! Nobody wants to challenge the findings, but very few sites allow coverage! It may be a simple case of fear. Take a moment to read some info (in italics) from The Silver Stealers documentary (free access, as opposed to others offering to help you for a charge---and give you way less content)

**"IT IS AMAZING THAT FOREIGN INFLUENCE CAN BE BROUGHT TO BEAR ON SUCH HIGH AMERICAN OFFICIAL CIRCLES. IT IS UNFORTUNATE THAT THE SCHEMES OF ONE GOVERNMENT COULD BE PERMITTED TO BLOCK A CONFERENCE OF ALL NATIONS ON SO VITAL A SUBJECT."--**

*-Nevada Silver Senator Key Pittman, New York Times, June 9, 1931, p. 49*

*The Commercial & Financial Chronicle, January 30, 1932, page 766 "President Hoover was accused by Senator Pittman (Democrat Nevada) of "tying the hands of the Senate" in failing to call an international conference on silver, following an 80 minute speech in favor of remonetization of the white metal by Senator Wheeler (Democrat Montana). "The President has no excuse for not calling such a gathering" Pittman asserted."*

*"President Hoover, **DUE TO BRITISH OPPOSITION**, has refused to take any steps toward calling a silver conference."*

---China Weekly Review, June 20, 1931, page 85.

*"Leaders of the silver industry are understood to entertain little hope that the President will take the lead in calling a conference to restore silver" (Commercial & Financial Chronicle, New York, April 18, 1931, page 2869); "The President has no intention of calling a (silver) conference, it was authoritatively asserted" (New York Times, September 3, 1931, page 35). Dean of Boston University, Howard LeSourd, said after World War II---*

*"Our State Department seems to have no mind of its own when it deals with the British on matters of world policy. Even our President backs down at the suggestion of the Prime Minister of England."*

Hoover represented British mining interests in Western Australia, eventually locking up about 50% of the gold output and the Sons of Gwalia mine [http://en.wikipedia.org/wiki/Herbert\\_Hoover](http://en.wikipedia.org/wiki/Herbert_Hoover)

Yeah, you want to get into who the others were in the peek into the leaked list. No time for that here other than a few tidbits; the 11<sup>th</sup> Marquess of Huntly, a member of the House of Lords, was son in law of a prominent British banker who was connected to the (silver suppressing) Bank of England, the main entity back of the Crime of '73! Baronet Sir Edgar Horne of British Overseas Bank, Imperial Ottoman Bank, Anglo South American Bank and other banks was "a director of numerous companies." Sir Thomas Harrison Hughes, Baronet, was director of the Suez Canal Company and a major ship owner. All these people and entities are silver suppressors. That was Herbert Clark Hoover in the list, no mistake! The Pilgrims Society does not invite shoe shine stand operators into its ranks. We have demonstrated a member of the Secret Society to have appointed Judge Patterson Senior to the Federal bench! We additionally have demonstrated the particular member (Hoover) of the Secret Society who appointed Judge Patterson Senior was in fact a top tier monetary silver

suppressor! Judge Patterson as of the late 1940s to early 1950s was made a director of the Federal Reserve Bank of New York---a Pilgrims Society entity down to the last brick and trace of mortar!

Not all of its directors over the years have been Pilgrims members---only the most important board members, like David Rockefeller in the 1970s. I have nothing to show that either Patterson was a Pilgrims member; however, clearly they were both prostituted to the Secret Society! Senior was a member of the Council on Foreign Relations, a direct Pilgrims subsidiary. Patterson Senior even had a law office at number 1 Wall Street! That was Patterson, Belknap, Webb & Tyler. One of his law partners was Robert Morgenthau <http://en.wikipedia.org/wiki/Patterson> who was Manhattan District Attorney, 1975-2009. Robert was son of Henry Morgenthau Jr., the Treasury Secretary who presided over the Roosevelt ordered theft of gold and silver from Americans starting in April 1933 and August 1934. The original Morgenthau was a New York real estate kingpin and Ambassador to the former Ottoman Empire (Turkey) and a Pilgrims Society member. That law firm in fact has been crawling with Pilgrims Society members over the years including marriage ties to the daughter of gold and silver suppressor Richard Nixon (Pilgrims Society), whose ancestry blended into that of the Livingstons (tracing to a huge colonial land fortune) and the highly sinister Delafield family of Bank of America (Pilgrims Society). Bank America has "previously" been a Silver Users Association member. In 1895 Margaret Tarleton Winchester's father was Maryland State Bank Examiner. The Patterson father and son team of Federal judges have been neck deep with silver suppressors from the start. The Webb in this law firm was Vanderbilt Webb, a Vanderbilt descendant---the Vanderbilts were among the founders of The Pilgrims Society through front men Chauncey M. Depew and

Lindsay Russell, both Wall Street attorneys; Vanderbilt University hosts the anti-monetary silver American Economic Association.

Also in the Patterson/Winchester background is a related offshoot, Van Rensselaer Halsey (Pilgrims Society 1974 leaked roster) <http://www.pennock.ws/surnames/fam/fam21930.html>

He's descended from the 10<sup>th</sup> richest American of all time, Stephen Van Rensselaer (1764-1839) whose mother was a wealthy Livingston

[http://en.wikipedia.org/wiki/Stephen\\_Van\\_Rensselaer](http://en.wikipedia.org/wiki/Stephen_Van_Rensselaer) In 1825 Van Rensselaer cast the deciding vote in Congress in the twisted Presidential election, giving John Adams the edge over the clear choice of the public---General Andrew Jackson, hero of the War of 1812 and of the Battle of New Orleans. Why did Van Rensselaer vote for Adams, who was known to favor the United States Bank?

Van Rensselaer was a banker himself

<http://www.timesunion.com/albanyrural/vanrensselaer/> and the leading investor in Mohawk & Hudson Railway. The Van Rensselaer name has recurred in leaked rosters of The Pilgrims Society.

A look at Judge Patterson Junior, who dismissed the silver price fixing lawsuit against JPMorgan Chase and other defendants; page 3592 of 2005 Who's Who in America---

"History appears to be defined by a succession of corrupt ruling elites."

---Laura Knight-Jadczyk, author

Junior got into daddy's law firm and in 1988 was a Ronald Reagan appointee! Wonder what influences was Reagan affected by? David Rockefeller, leaked roster of The Pilgrims, tracing to 1949 (also in later lists) ---

*David Rockefeller and Ronald Reagan*

Ronald Reagan probably got his first connection to The Pilgrims Society via his association with General Electric Theatre starting in 1954 [http://en.wikipedia.org/wiki/General\\_Electric\\_Theater](http://en.wikipedia.org/wiki/General_Electric_Theater)

General Electric, a silver user, has been crawling with Pilgrims Society members over the years like Henry Sturgis Morgan, grandson of the original J.P. Morgan (Pilgrims) and founder of silver suppressor Morgan Stanley---naturally, General Electric is too large an entity to not be part of this web! Scranton for President was William Scranton, who was Pennsylvania governor and United Nations Ambassador who joined Rocky's Trilaterals.

Globalist connections? Both Judge Pattersons had/have them plus! The Lawyers Committee for Civil Rights Under Law is more

of the same intertwined entities and one-worlder types  
<http://www.lawyerscommittee.org/about/board>

Notice Judge Patterson Junior, major silver price suppressor, was on the Rockefeller University Council, 1986-1988. Concurrent with his tenure as a RUC member was Brooke Astor, among the very few women members of The Pilgrims Society. She was Vincent Astor's widow, an inner circle Pilgrims Society member who took Franklin Roosevelt on an 11 day cruise on his yacht in 1932---as soon as Roosevelt became President, he seized gold from the public! Direct connection? You better believe it, podnuh, and he was pals with Pilgrims Society member John D. Rockefeller Junior, David's pappy! That theme is addressed in "The Silver Stealers." Here we see inner circle Pilgrims Society member David Rockefeller and his top level operative, Henry Kissinger, a vice president of The Pilgrims Society, at Brooke Astor's funeral in 2007; her large, nearly flawless emeralds were great geological rarities and just a scintilla of her fortune---

Brooke was also a trustee of the Pierpont Morgan Library; WNET TV Channel 13; Mrs. Lyndon Johnson's Beautification Committee; and received dozens of awards and medallions, including from President Reagan in 1998 and the Hadrian Award of the World

Monuments Fund (after Roman Emperor Hadrian). This is the same Astor family tracing to John Jacob Astor (1763-1848), "Landlord of New York," opium trader to China and British Crown loyalist of whom biographer Gustavus Myers said (1909) ---

"It can at once be seen in what transcendent degree Astor's wealth towered far above that of every other rich man in the United States."

That was true as of 1848; most Astors migrated to England, and Lord Astor of Hever Castle (built in the 12<sup>th</sup> century) was president of The Pilgrims Society of Great Britain, 1977-1983. The New York Social Diary deleted a statement from its site that Astor real estate in Manhattan alone is north of \$100 billion; Jacqueline Astor is married to John R. Drexel IV, third generation Pilgrims Society member and on its executive committee as was his father---making him an inner circle member.

Current members of Rockefeller University Council <http://rockefeller.edu/about/board> include Marlene Hess of the Amerada Hess oil and gas fortune, seen here with her attorney husband James Zirin, who has handled Rockefeller legal matters; he's currently on the executive committee of The Pilgrims Society---

“Our judges are largely the indentured servants of the commercial interests.”

---Edward Abbey (1927-1989, author)

The Goldman Panel to Investigate Attica was appointed by then New York Governor, Pilgrims Society Nelson Aldrich Rockefeller, grandson of Pilgrims Society member, Senator Nelson Aldrich, father of the (anti-silver) Federal Reserve Act of 1913. National Citizens for Eisenhower had Patterson Junior involved with other Pilgrims Society members, as did his involvement with the George C. Marshall Foundation (George Marshall, Pilgrims Society, was Army Chief of Staff and Secretary of State and supervised the reconstruction of postwar Europe, 1948-1952); New School for Social Research; W.T. Grant Foundation (Russell Pennoyer currently of Grant Foundation is a J.P. Morgan relative; grandson of Paul Pennoyer, Pilgrims 1969 leaked roster, who helped found the United Nations in 1945 and married Frances Morgan, daughter and last surviving child of J.P. Morgan Jr. --- Pilgrims Society). The New York State Bar Association and the Association of the Bar of the City of New York give Patterson Junior additional contact with probably several dozen Pilgrims

Society members across the years; ditto for the New York County Lawyers Association; American Judicature Society and the American Law Institute. I can certainly delve into my records and produce names if there is a doubter! Frederick Van Pelt Bryan, Order of the British Empire, a Federal judge in the same district court, was a director of the American Judicature Society and a Pilgrims member (1970 Who's Who, page 294). Norris Darrell (Pilgrims Society) was president of the American Law Institute (1961-1976) and a director of the London based Schroder Banking Corporation, associated with historic European wars; he married into the Churchill family. Winston Churchill himself (Pilgrims Society) met his wife at an event sponsored by Rothschild (Pilgrims Society/silver suppressors) relatives [http://en.wikipedia.org/wiki/Winston\\_Churchill](http://en.wikipedia.org/wiki/Winston_Churchill) The American Bar Association had William Howard Taft (Pilgrims Society) as a president after Elihu Root (Pilgrims Society, Carnegie Steel fortune administrator). Taft was a major league silver suppressor who ruled against American silver miners as Chief Justice of the Supreme Court, trashing legal requirements of the Pittman Act of 1918, and stealing \$14 million from hard pressed Western silver miners. Details appear in "The Silver Stealers." John W. Davis and Charles Evans Hughes, both Pilgrims Society members, followed them as American Bar Association presidents. Joseph H. Choate, a Vanderbilt agent and president of The Pilgrims New York (1912-1917) was first president of the New York County Lawyers Association in 1912.

Sullivan & Cromwell, long located at 48 Wall Street, was lead counsel for JPMorgan Chase in the silver lawsuit. Sullivan & Cromwell has been literally crawling with Pilgrims Society members over the years and may be the top Pilgrims Society connected law firm in the United States. It had such Pilgrims members as David W. Peck of the New York State Supreme

Court; Allen Dulles of the Central Intelligence Agency; John Foster Dulles, Secretary of State; Arthur H. Dean, key advisor to numerous Presidents and director of the Bank of New York and the Council on Foreign Relations; William Ward Foshay, director of Marine Midland Banks, who was son in law of Dunlevy Milbank (Pilgrims 1940 leaked roster) and others.

Daryl A. Libow, lead attorney from Sullivan & Cromwell protecting Morgan-Chase, has also represented other Pilgrims Society entities as Goldman Sachs; British Airways; Glaxo Smith Kline; Wells Fargo; British Petroleum; National Australia Bank; Royal Bank of Canada; and top tier silver antagonist, Barclay's Bank and successfully defended the former President and Mrs. Clinton--both Pilgrims Society members. Have a look at the wild-eyed attorney for silver antagonists

<http://www.sullcrom.com/lawyers/Daryl> As managing partner of the D.C. office of Sullivan & Cromwell, Libow has a "red flag" as a possible Pilgrims Society member. I hope he reads this. Daryl? Are you on The Pilgrims national waiting list of 70?

His flunky, Amanda Flug Davidoff, has a rather angelic expression, in marked contrast to that of the shifty looking Libow, but I remind all that Satan was once the most beautiful of the angels; and doubtless gave silver the "flug" treatment!

<http://www.sullcrom.com/lawyers/AmandaFlug>

Christopher Lovell was lead attorney for plaintiffs in the silver lawsuit

<http://www.lshllp.com/AttorneysCL.aspx>

Here's a Bloomberg interview of Lovell on a different matter

<http://www.bloomberg.com/video/65227828>

An interview dated March 12, 2013, with Lovell on the silver case is at

Cleary Gottlieb (1,200 + attorneys), the secondary law firm for the defendant silver suppressors, was founded by George Wildman Ball (Pilgrims Society leaked list 1969) who was on the Bilderberg steering committee, supervising the inferior organization which exists to indoctrinate transitory heads of state. Cleary Gottlieb in 2012 restructured \$140 billion in Iraqi foreign debt. Ball authored "Cosmocorp---The Importance of Being Stateless" in Columbia Journal of World Business, November-December 1967, pages 25-30. Ball wrote the introduction to Pilgrims Society member Richard Eells book "Global Corporations: The Importance of Being Stateless" (1972). Ball resided at 860 United Nations Plaza and was a Lehman Brothers partner starting in 1968 and director of Burlington Industries and American Metal Climax. Ball was a silver suppressor, because Lehman Brothers was, documented in December 2005 at [http://www.silver-investor.com/charlessavoie/cs\\_december05\\_ninebillionounces.htm](http://www.silver-investor.com/charlessavoie/cs_december05_ninebillionounces.htm) which also documents other judicial corruption similar to silver; but silver is the big story. Pilgrims Society member George Ball conferring with anti-silver activist, Pilgrims Society member President Lyndon B. Johnson who helped Pilgrims Society members Douglas Dillon, Treasury Secretary, Robert Roosa, undersecretary of the Treasury, and William McChesney Martin Jr., head of the Federal Reserve, get rid of 90% silver coins by 1965---

860/870  
UN PLAZA

In 1933-1935 Ball was on the staff of the Treasury Department, which was taking in truly huge amounts of gold and silver from an intimidated American public, frightened by Franklin Roosevelt's forfeiture decrees 6102 and 6814! During World War II Ball was with the Lend-Lease Administration, which pioneered silver

“leasing” to the extent of 88,073,878.21 ounces (“Silver at the Crossroads,” Mining Congress Journal, February 1947, page 84).

The Silver Stealers documentary is full of such details and is available for the price of your time only, like what happened to 65 million silver ounces entrusted to Pilgrims Society member Glenn T. Seaborg who headed the Atomic Energy Commission? Keep your \$29.99 and buy another silver ounce and a few silver dimes! I’m happy to hurt the bad boys for free by making info available.

In 1954 Patterson Jr. was assistant counsel to the Senate Banking and Currency Committee

[http://judgepedia.org/Robert\\_Patterson](http://judgepedia.org/Robert_Patterson) which seems a likely place for a paper money sympathizer! Patterson Jr. was a law clerk, 1950-1951 in Donovan, Leisure law firm. The leaked Pilgrims roster for 1969 had the name George S. Leisure of number 2 Wall Street. He was associated with the Harriman interests (Pilgrims Society, Union Pacific fortune, banking interests); with Du Pont (major silver users, Pilgrims Society); the Vanderbilts (Pilgrims Society) and with Rockefeller oil interests (Pilgrims Society). Donovan Leisure’s clients included Kodak, at the time a major Silver Users Association member. The interlocks are Byzantine in nature. Chauncey Belknap of the Patterson law firm married Dorothy Lamont, daughter of Robert Patterson Lamont (Pilgrims leaked roster 1940). Lamont owned an estate in Wisconsin called “Summerwind” which is considered “one of the most haunted places in America”

[http://en.wikipedia.org/wiki/Robert\\_P.\\_Lamont](http://en.wikipedia.org/wiki/Robert_P._Lamont) Lamont was Commerce Secretary (1929-1932) in the administration of documented silver suppressor, Pilgrims Society member President Herbert Hoover. After Commerce, Lamont headed the American Iron & Steel Institute. His daughter Gertrude married the son of a major general---Charles E. Saltzman Jr. (Pilgrims Society), who became a Goldman Sachs partner in 1956. Lamont was a

director of International Harvester; Montgomery Ward; Illinois Bell Telephone; American Radiator Company; Armour & Company; Dodge Brothers and others. Lamont chaired the Inter-American High Commission as of 1933, which was organizer of the Pan American Conferences---Wall Street influence against monetary silver in countries Western hemisphere countries south of the border. The Money Power always has everything full blown in a setup against hard money. A silver lawsuit is filed, the court says "there's a regulator, the regulator has to finish his investigation first," then later the regulator finds "no manipulation." Filing a lawsuit against naked silver shorts---how could it have gone far? Looks like the only way Constitutional money can return is for fake money to fail. This it is assuredly in the process of doing.

Raymond J. Lohier, who was a law clerk to Judge Patterson Jr. (1992-1993), and was also earlier with the Cleary Gottlieb law firm defending JPMorgan Chase in the silver price suppression suit <http://alumni.nyu.edu/s/10> is the flunky installed by Barak Obama to fill the judicial post vacated by flunky Sonia Sotomayor. Lohier received the Vanderbilt (Pilgrims Society/silver suppressors) medal from New York University School of Law. Laughably, Lozier was chief of the Commodities Fraud Task Force just before being moved by the manipulators like a plastic square on a kid's puzzle into the slot Sotomayor vacated. Even ex law clerks of Judge Silver Suppressor Patterson, a Rockefeller/Pilgrims Society flunky himself, are very spooky! On April 4, 1999, the New York Times reported Lohier got married at "Meridian House" in Washington, D.C. Meridian says it wants to "strengthen international understanding" meaning they're more globalists <http://www.meridian.org/joinus> Katherine A. Levine was another law clerk to Patterson; she was with Cravath, Swaine & Moore, an important Pilgrims Society

connected law firm. Jina L. Choi was another of Patterson Jr.'s law clerks; she now runs the San Francisco office of the Securities Exchange Commission <http://www.sec.gov/news/dige> Having witnessed Patterson's idea of silver regulation, we should assume his notion of securities regulation is the same, and that naked shorting of any company's shares is acceptable as long as the Money Power ("Pilgrims Society") is doing the shorting! Ms. Choi knows about "complex manipulation schemes" the SEC link assures us! I now succumb to the temptation to say the system has "turgled" on us! According to the "urban dictionary," one meaning of "turgle" is when your mobile device goes dead due to power loss while you're in a conversation. Patterson's dismissal of the lawsuit suggests hope is dim for court action against monetary suppressors when COMEX power to stifle price advances ends. However, public pressure and the scandal may be such that judges feel they have to repudiate their financial "angels" else risk judicial impeachment! This was from the letterhead of the Society as of their only response to me (December 1973), near the American Stock Exchange and within the historically important, incredibly wealthy Trinity Church (same street number, established by Royal Crown charter of King William III in 1697) ---

Other addresses they've used are 1 Wall Street and the current 122 East 58<sup>th</sup> Street, second floor, New York 10022. \$3,000 if you can obtain a list dated 2006 or more recent! Such venture is very doubtful; however, if you feel you have a list, we will agree on an intermediary, after which you'll send only the "H" names in the list. If they check out, you get the funds and I get the balance of the list through the intermediary we could agree on. I

am not offering to compensate any prohibited actions nor do I assume responsibility for any misbehavior. Only persons within convenient distance of the New York Public Library or the Library of Congress are likely to have any chance, and then a slim chance at best in genealogical, diplomatic, "charitable" foundation or finance areas; London, U.K. residents may quest! No list, no funds---your time is your own risk. Librarians are also aware of risk to their employment. A Congressional subpoena is a more likely route. Secrecy, concealment = "Pilgrims!"

According to [http://en.wikipedia.org/wiki/Harold\\_Medina](http://en.wikipedia.org/wiki/Harold_Medina) in 1947 President Harry Truman (Pilgrims Society) appointed Harold Medina (1888-1990) a Federal judge in the Southern District of New York (same as both Pattersons). On June 21, 1956, Truman was guest of honor of The Pilgrims of Great Britain meeting in London, presided over by The Earl of Halifax, who personally caused the Great Depression by dumping Indian silver on world markets, wrecking the purchasing power of the entire Far East. Page 143 of "The Pilgrims of Great Britain" (2002, very limited edition book) shows a letter from Truman to Sir Campbell Stuart of The Pilgrims London, dated March 5, 1956---the letterhead reads "Harry S. Truman Federal Reserve Bank Building Kansas City 6 Missouri" (that was before zip codes were fully developed). The Pilgrims Society stands directly behind the Bank of England and the Federal Reserve! Medina was "most noted for hearing landmark cases of conspiracy." As we understand, in order to receive the "mental health" pedigree, we must not declare that any master conspiracy of financial elite exists---this is prima facie proof of "mental disorder!" In 1951-1952 Medina presided over a year long case known as the "Investment Bankers Case" against "seventeen of the most prominent Wall Street investment banking firms, known as the Wall Street 17." Medina ruled in favor of the 17 Pilgrims Society run investment banks! Rather

than show you Medina's very lengthy biographical details from the Who's Who, have a look at an excerpt from page 19 of the leaked roster of The Pilgrims 1957 (following image of Judge Medina, with his rather horsefly looking face) ---

"I hate purity, I hate goodness. I don't want any virtue to exist anywhere. I want everyone to be corrupt to the bones." ---

George Orwell "1984"

At lower left, Judge Medina---member of The Pilgrims Society, who shielded his Pilgrims Society pals in the 17 Wall Street investment bank case---upper right, Henry Sturgis Morgan of Morgan Stanley & Company; below, Junius Spencer Morgan of Morgan Guaranty Trust, and Henry's older brother---both third

generation Pilgrims Society members! The Major General listed between them was not related, but be aware The Pilgrims Society controls the entire United States armed forces, through various top brass, Defense Secretaries, and of course the President himself is in the Society's vest pocket. Even Raymond Massey, who was a screen actor (making him an outer circle Pilgrims member), married the daughter of a British admiral. Medina had an award from the New York Board of Trade, an avowedly anti-monetary silver organization; for details see <http://silverstealers.net/tss.html> and among many other leadership positions in attorney and judicial groups, was a director of the American Judicature Society. Medina received the Van Rensselaer award (we just had a peek into his legacy!) It should be figured that means influence of the Money Power is spread within many national legal organizations, creating a bias against Constitutional hard money! How could legal tender laws, necessary to prop up fiat money, have been crafted without attorneys? Dave Morris was with the Bank of New York at 48 Wall Street and a director of giant insurance groups. How could Judge Medina have found against his pals in the Secret Society? No more than Judge Patterson finding against Morgan Chase and HSBC in silver! I don't think Patterson's court could be any more biased against silver than if he held 500,000 shares of Dow Chemical, Silver Users Association members. Also of note is Patterson's involvement with the Millbrook School, 1966-1978; currently Gordon Pennoyer, a J.P. Morgan descendant with direct family ties in The Pilgrims Society, is a Millbrook trustee. Yes, Judge Patterson runs with the "right" people, undoubtedly his viewpoint. I can't help people who don't see relevance in probing the background of these judges! Showing the interconnected shady characters they run with helps you confirm why their rulings are so appalling!

---Francois De La Rochefoucauld, Prince de Marcillac (16130-1680), French nobleman.

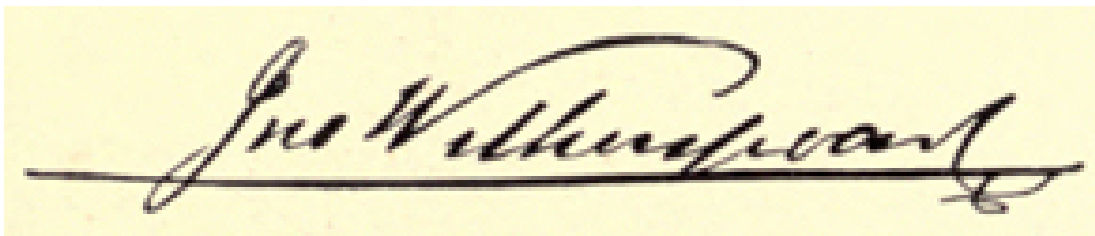

“Our country is now taking so steady a course as to show by what road it will pass to destruction, to wit: by **CONSOLIDATION OF POWER** first, **AND THEN CORRUPTION, ITS NECESSARY CONSEQUENCE.**”

---Thomas Jefferson

“Silver and gold became universal money by the nature and force of things, from which the deduction has been drawn that to proscribe silver from being used as money **IS A VIOLATION OF THE NATURE OF THINGS.**”

---Robert Jacques Turgot, 1727-1781, French economist and member of the French Parliament

“Why will you make a law to oblige men to take money when it is offered them? Are there any who refuse it when it is good? If it is necessary to force them, does not this demonstrate that it is not good? We have seen indeed this system produce a most ludicrous inversion of the nature of things. For two or three years we constantly saw and were informed of **CREDITORS RUNNING AWAY FROM THEIR DEBTORS, AND THE DEBTORS PURSUING THEM IN TRIUMPH, AND PAYING THEM WITHOUT MERCY.**”

---John Witherspoon (1723-1794), Presbyterian minister and signer of the Declaration of Independence "Essay On Money IV" referring to the unfunded paper currency catastrophe. The same thing happened in France in the same time frame. Gold and silver for us, confetti ticker-tape parade money for Judge Patterson, who is unquestionably a second generation "hired gun" for silver suppressors.

"Experience has shown that even under the best forms of government those entrusted with power have, in time, and by slow operations, perverted it into tyranny."
